

COVID-19 Guidelines Update

August 22, 2021

All services continue to be provided as we navigate the COVID-19 pandemic. Please contact our Access Department at (989) 723-6791 to start services or the Customer Services Department at 989-723-6791 to ask a question about services.

Shiawassee Health & Wellness is following guidance from the CDC and our local Shiawassee Health Department.

1. Due to the level of community transmission being at a level “high”, **masks are required regardless of vaccination status in our building and vehicles. Masks should also be worn on community visits when the employee cannot socially distance.** This includes employees, individuals served, visitors, and contractors.
2. SHW will continue to require daily COVID symptom screenings from employees, individuals served, visitors, and contractors.
3. Following CDC guidance for public transportation, masks are required in our fleet vehicles.
4. It is strongly recommended to continue with hand hygiene, disinfecting and staying home when you are sick.
5. SHW will continue to ask employees to report if they test positive for COVID-19 to assist in contact tracing.
