

## **School Based Outpatient Therapist**

### **Job Summary and Responsibilities**

Shiawassee Health & Wellness, an innovative Community Mental Health organization, is seeking a full-time School Based Outpatient Therapist that works within the E3 program in the Perry School District located inside of Perry High School.

The School Based Outpatient Therapist will provide direct counseling services and psychosocial support to adolescents to address their social and emotional needs; anxiety, depression and relationship struggles. The mental health services provided within the school setting shall meet the current standards of practice for care and treatment of children and/or adolescents in the traditional outpatient therapy setting including assessment, treatment plan development and ongoing therapy services.

### **Qualifications and Skills**

- Master's Degree in Social Work, Psychology or Counseling from an accredited university required.
- Licensed by the State of Michigan in the areas of social worker, psychology, or counseling (LLMSW, LMSW, TLLP, LLP, LLPC or LPC) required.
- Minimum of two years' experience providing therapy or counseling services to children and families is preferred.
- Experience with Shiawassee County agencies, resources and school setting preferred.

### **Benefits**

As an employee of Shiawassee Health and Wellness, receive an excellent benefit package including paid holidays, generous Paid Time Off (PTO), health, dental, and vision Insurance, short and long term disability, life insurance, employer sponsored pension, and much more. Ask about our corporate gym membership!
